

Getting-to-Know-You Scavenger Hunts

This is a wonderful icebreaker any time during the first week of school. It's critical to stick to your predetermined time limit for this activity because with the excitement this activity generates, it will be tempting to let it continue!

The following three pages contain three different versions of the scavenger hunt. Distribute a copy of one of the scavenger hunts to each of the students to complete. On completion, ask students to raise their hands if they have answered all 15 questions. If no-one raises a hand, keep going (14, 13, 12) until you can collect a paper with the most completed answers. Review the sheet with the class. Talk to each of the students whose name is listed under each category. Verify that they fit the given category. If they do not, deduct one point from the total. Continue until a winner is established.

Variations:

- Have students work in pairs or small groups.
- Allow students to work on the scavenger hunt during the first week of school.
- Encourage students to find a different classmate for each answer.
- Invite students to make up their own scavenger hunts.

Name: _____

Class: _____

Scavenger Hunt: Classmates Part 1

Find a classmate who fits each of the following categories. Record each name on the lines provided. Try not to use the same person more than twice.
