

Where Does Rubbish Go?

Name: _____

Class: _____

Lots of rubbish gets dumped every year in landfills (most of the Olympic site at Homebush Bay in Sydney is built on landfill). A lot of space could be saved if everyone recycled properly.

What sort of bins do you have at home? Do you have a separate bin for recycling? Draw your bins below.

Think about all of the rubbish that you have thrown out personally over the past week. Do you think most of it could be recycled?

Try to put the rubbish you have thrown out into one of the below categories. Which is the biggest category?

RUBBISH
Eg. Foil lunch wrap

RECYCLE
Drink container

COMPOST
Banana Skin
