

# Diwali Flower Garland

In some parts of India, people wear fresh flower necklaces or garlands during Diwali. You can make your own simple flower garland by following the instructions below:

- Paint both sides of this page using different bright colours.
- Cut out each of the flower shapes, and use a hole-punch to create a hole in each flower.
- Thread the flowers onto a length of wool, inserting cut lengths of drinking straws between each flower. Tie the ends of the wool together to form a garland.
